

HOW YOU FEEL ABOUT YOUR HEALTH

This questionnaire is about your health and how it affects your daily life. The questions cover things that other young people have said are important to them.

Below is an **example** of how to answer the questions.

In the past week...

How often have you been made to go to bed earlier than you wanted to?

- Not at all
- A few days
- Most days
- Every day

For this part of the question tick **ONE** box which best applies to you. So if you have been made to go to bed earlier than you wanted to every day in the last week - tick the last box.

On the scale from 0 to 10 shown below, please draw a cross on the line to show how much in the past week, being made to go to bed earlier than you wanted to has made life difficult for you?

For this part of the question put a cross on the line which best marks how you feel. You can put a cross anywhere on the line. So if you feel that in the past week, being made to go to bed earlier than you wanted to has made your life a bit difficult, you might put a cross between the number 2 and the number 3.

- Some of the questions have two parts like the one above, some questions just ask you to put a cross on the scale.
- Please try and answer all of the questions if you can.
- This is not a test, there are no right or wrong answers.

In the past week...

1. how often have you felt short of breath or puffed out ?
