

MODE REPORT

The delivery of a menu-based approach CR programme, driven by patient choice, is a clear direction from the BACPR in the 2023 Standards and Core Components and thus is an important metric for the audit to report. This supplement shows, at programme level, detail on the different modes of delivery that are being provided and reported. There is also an indicator to show whether programmes are delivering Single- or Multi- Mode (Group and Home-based/Self-managed individually, or Hybrid delivery where a patient receives both modes). Data used was from digitally captured data entered into NACR from Jan-Dec 2024. (England grouped by Network; Northern Ireland by Health and Social Care Trust; Wales by Health Board).

Insufficient Number of Starters for Valid Data Reporting = less than 30 starters
