

APRIL 2023 NACR QUARTERLY REPORT ON DEPRIVATION AND COMPLETION (Rerun using July 2023 extract)

(Oct to Dec 2022 data; patient records were included if they started Core* Rehab within the time period and there was sufficient data – 10 or more Core rehab records with a start date created – within the named programme)

This is the seventh Quarterly Report for NACR and continues to detail the demographic characteristics of patients that attend cardiac rehabilitation (CR). This report, the previous report, and future quarterly reports will focus on detail around Completion of Core CR at a local service level for England, Northern Ireland and Wales.

This report selects patients based on those with a start date for Core CR between October and December 2022 and looks at the level of completion across programmes by deprivation, which is shown in wider research to influence the participation rate of CR. The table splits the patient group across deprivation quintiles (20% groupings) and presents programme completion rates within these categories.

There was a wide spread of completion, across the deprivation groups, showing local variation between programmes, some of which may be affected by small sample size. The overall trend in the UK shows that patients residing within areas of lower deprivation (quintiles 3-5) had between 1% and 3% greater completion rates than those in the more deprived areas. The trend is incremental with the most deprived quintile having 68% completion whereas the least deprived had 79%. Data caveat – In this month's report, along with presenting 'No Records', we are also suppressing % completion where the subgroup has fewer than 5 patients for a programme. This to avoid misleading values.

(* Throughout this report 'Core' refers to Core or Phase 3 records)

England sorted alphabetically by Network then Programme/Trust

Programme Code	Trust Name	Network	Region/ICB	Completion Rate % in Most Deprived Quintile	Completion Rate % in Second Most Deprived Quintile	Completion Rate % in Middle Deprived Quintile	Completion Rate % in Second Least Deprived Quintile	Completion Rate % in Least Deprived Quintile
