

OCTOBER 2021 NACR QUARTERLY REPORT ON GENDER AND ETHNICITY (UPDATE JAN 2022)

This is the re-run Quarterly report for NACR detailing patients' characteristics at the start of Core cardiac rehabilitation (CR) at a local service level for England, Northern Ireland and Wales. As stated, the data in this report has been rerun in January 2022 to pick up additional data added after the September deadline, and to ensure that data is complete and up to date. This data should not be used as an indicator of service level uptake as the total number of eligible patients could not be verified due to Covid-19 service pressures. "
